PROFESSIONAL SUMMARY

Full stack web developer with strong UI/UX/Design skills and a passion for new technologies, frameworks, and collaborative/ agile development.

PROJECTS

ProdConnect | web application

ProdConnect is a full stack web application built with the MERN stack. It connects video professionals with one another, where users can sign up, create profiles, posts and comments. The YouTube API was also used to bring in a users latest uploaded videos.

Deployed at prodconnect.herokuapp.com

Boats-R-Us | e-commerce site

E-commerce site developed in the Node, React, Redux, SQL stack. Worked specifically on front end React/Redux components.

Link to Boats-R-Us (Github)

Deployed at boatsrus.herokuapp.com

DivLab | interactive website builder

Drag and drop and fully customizable website builder developed in React and Firebase. Worked on front-end and drag and drop functionality.

Link to DivLab (Github)

Deployed at divlab.herokuapp.com

SquareWave | synthesis music sequencer

Interactive music experience developed over a 4 day Hackathon, using React, Javascript, and the Tone.js library.

Link to Square Wave

Deployed at square-wave.herokuapp.com

EXPERIENCE

Pomade.tv | NYC

Development Intern | Nov 2019 - Jan 2020

At Pomade I assist the senior designers in transitioning legacy code into fully modular React components. I work hand in hand with the design team to translate mockups into reusable React JSX.

Atlas Media Corp | NYC

Director of Technology / Web Developer | Sep 2018 – Jan 2019

Managed all company technology initiatives. Oversaw purchasing for all IT needs, including computers, VOIP, and software. Continued to develop and maintain software and internal business tools, as well as develop a website for company YouTube initiative (CuriousJack.tv).

Web Developer | May 2012 – Sep 2018

- Developed, designed, and maintained company web page (JavaScript, HTML, CSS, Wordpress).
- Created and maintained internal inventory tracking tools for all company assets (PHP, MYSQL, JavaScript, HTML, CSS).
- Designed promotional websites for various coproductions (Elvis Duran Radio Show, Best Worst Thing That Ever Happened (theatrical documentary)(ReactJS, HTML, CSS).
- Designed promotional email blasts using MailChimp API (HTML,CSS).
- Created and designed internal graphics and animations for company YouTube productions (Sketch, Premiere, Photoshop, Illustrator).

Technology Coordinator | Aug 2007 – May 2012

Operated company help desk and provided tech support to staff. Maintained internal servers and networking equipment.

One Thing LLC | NYC

UX/UI Designer | Oct 2018 – Dec 2017

Consulted on user interface and user experience for mobile app development at startup. Created wireframes and mockups for product as well as presentation media. (Adobe XD, Photoshop, Sketch, Illustrator).

EDUCATION

Fullstack Academy of Code | NYC
Software Development Immersive | May 2019 - Sept 2019

Institute of Audio Research | NYC
Audio Engineering | Jan 2006 - Feb 2007

Hunter College | NYC
Archaeology | Aug 2001 - Jan 2004
